NEW Fast and Flexible Fractional Carton Caser from Westfalia
Packs quart (1L), pint (500ml), and ½ pint (250ml) cartons – 240 cartons / minute

YORK, Pa., October 1, 2009 – Westfalia Deam Systems division announces its latest addition to their line of case packers, the Fractional Quart Carton Caser. This high speed and flexible caser, packs 240 cartons/minute into single cases and utilizes a 4x4 packing pattern. It has a servo control load head to adjust to various fractions of quart side cartons, and is height adjustable. It comes with dual in-feed carton conveyors, case conveyor and line breaks. Among the options available, are extensions to carton and case conveyors, and motor controls for incoming conveyors.

“This caser has a servo controlled load head which adjusts to handle different size cartons with a single HMI selection. Carton loading is not only fast but extremely smooth,” explains Fred Beer, President of Westfalia’s Deam Systems division.

As with all Westfalia Deam Systems equipment, the Fractional Quart

Carton Caser is constructed of stainless steel and is ideal for the wet environments found in dairy and beverage facilities. It is guaranteed to perform to the specification. Each piece is

thoroughly tested (Factory Automation Tests) before shipping and installation at the customer's facility. Westfalia also offers a complete service plan on all equipment to guarantee your peace of mind.

This Fractional Quart Carton Caser is part of the complete line of beverage case packing and case handling equipment available from Westfalia Deam Systems division. To learn more about our full line of casers, case stackers, conveyors, palletizers, inverters and more, please contact Westfalia at 800-673-2522, 717-764-1115 or visit www.WestfaliaUSA.com and click on our case packing and handling products.
